

There are more than 1000 streets in our area ...
change the place where you live; pray

STREET X STREET

October 2013

We all want to see transformation in the communities where we live, in the lives of people around us. We long to see God break through in spiritual power.

Our conviction is that it can happen!

Think of it; people saved, broken relationships restored, families and whole communities reshaped as the righteousness of Jesus Christ sweeps through.

And God already has a strategy to ensure that it can happen. We are the strategy!

All over this area Christians have been strategically placed alongside neighbours, in streets and blocks of flats because God wants us to be the agents of transformation. God has put you and I right where we are so that we can be the agents of transformation that we long to see.

STREET X STREET

Our vision is to see each of the 1000 streets in our borough covered in Christian prayer.

Your street is your personal mission field! Start to pray for the people who live there. God changes people through prayer!

Pray every day that God will give you opportunities to share His love with them and that he will open their hearts and minds to his love, faithfulness, forgiveness and compassion.

Build friendships and relationships with

the people you are praying for. Spend time with them and be prepared for spiritual conversations as their hearts start to open up to God.

You may want to think about how to get God into your conversations, tell your story in a couple of minutes or answer tough questions. We will be developing a series of short seminars help you develop those simple and essential skills.

HOW IT WORKS

It's simple:

Step 1 - just start praying for the street where you live and maybe the one round the corner. You'll know some of the needs; keep your eyes and ears open. Ask people if you can pray for them.

Step 2 - Let us know what streets you are praying for by

- Calling or
- e-mailing or
- visiting the Transformation web site or
- Ticking off your street off on the list in your church (No list? Ask your church leaders to let you coordinate it)

Step 3 - we will update and publish a master list to let you know what isn't being covered so that we can pray Street x Street.

There will be wonderful stories to share of God answering prayer and changing lives. Just you wait!

Use the Neighbourhood Prayer Network to find out what's happening elsewhere!
